TWIN DISC, INC. ANNOUNCES FISCAL 2012 FIRST QUARTER FINANCIAL RESULTS

· Fiscal 2012 First Quarter Record Net Earnings of \$0.83 per Diluted Share

- · Fiscal 2012 First Quarter Sales Up 32.5% Year-Over-Year
- · Six-Month Backlog Up 12.0% Sequentially to an All-Time Record
 - · Management Optimistic For Fiscal 2012

RACINE, WISCONSIN—October 25, 2011—**Twin Disc, Inc. (NASDAQ: TWIN)** today reported financial results for the fiscal 2012 first quarter ended September 30, 2011.

Sales for the fiscal 2012 first quarter, seasonally the weakest quarter of the fiscal year, improved to \$81,330,000, from \$61,395,000 for the same period last year. The improvement in sales was the result of strong demand from customers in the oil and gas markets as well as growing demand in our aftermarket, industrial and airport rescue and fire fighting (ARFF) markets. Stable demand continues from the land- and marine-based military markets. While overall demand from commercial marine markets continued to improve, sales for the quarter were down slightly as a result of the timing of shipments to customers. The mega yacht and pleasure craft marine markets showed modest improvements in shipments and order activity in the first quarter versus the same period a year ago, albeit off of depressed levels.

Gross margin for the fiscal 2012 first quarter was a record 37.8 percent, compared to 32.6 percent in the fiscal 2011 first quarter. The significant improvement in fiscal 2012 first-quarter gross margin was the result of continuing increased sales volumes, improved manufacturing efficiency and absorption, and a more profitable mix of business.

For the fiscal 2012 first quarter, marketing, engineering and administrative (ME&A) expenses, as a percentage of sales, were 19.6 percent, compared to 24.1 percent for the fiscal 2011 first quarter. ME&A expenses increased \$1,132,000 versus the same period last fiscal year. Stock-based compensation expense decreased \$1,107,000 versus the prior year's first fiscal quarter, primarily driven by the decrease in the Company's stock price in the first quarter of fiscal 2012. Partially offsetting this were movements in foreign exchange rates, which increased ME&A expenses by \$792,000 in the first quarter of fiscal 2012 versus the comparable period a year ago. The net remaining increase of \$1,447,000 primarily relates to increased research and development activities, and higher salaries and wages.

Other income of \$394,000 for the quarter ended September 30, 2011 improved from other expense of \$554,000 for the comparable period a year ago. This improvement is due primarily to favorable foreign currency movements relative to the Euro, Canadian Dollar and Swiss Franc.

The effective tax rate for the fiscal 2012 first quarter was 35.3 percent, compared to the prior year's tax rate of 36.6 percent. The current year rate benefits from a higher estimated Section 199 (domestic production activities) deduction.

Net earnings attributable to Twin Disc for the fiscal 2012 first quarter were \$9,581,000, or \$0.83 per diluted share, compared to \$2,656,000, or \$0.24 per diluted share, for the fiscal 2011 first quarter.

Earnings before interest, taxes, depreciation and amortization (EBITDA)* was \$17,772,000 for the fiscal 2012 first quarter, compared to \$6,923,000 for the fiscal 2011 first quarter.

Commenting on the results, Michael E. Batten, Chairman and Chief Executive Officer, said: "This was an exceptionally strong period, and we are encouraged by the first quarter's record operating and financial results. Our results continue to be driven by outstanding demand for our 8500 series oil and gas transmission systems. First quarter results were driven by organic growth for our products in existing markets, primarily fueled by oil and gas demand, but also from aftermarket, industrial, and ARFF markets. A limited number of 7500 units shipped in the first fiscal quarter, as we began to accept customer orders for the new transmission. Some of these orders are now included in the reported six-month backlog figure."

"We are pleased to have announced our strategic partnership with Caterpillar in the pleasure craft market to develop our Joystick technology solutions for vessels that use a standard conventional shaft arrangement and vessels that will utilize a future innovative Cat POD system which will incorporate Twin Disc's patented QuickShift® transmission technology. Leveraging our new transmission and controls technology through Caterpillar's sales and marketing and distribution channels should provide substantial growth opportunities in the coming years as the pleasure craft market continues its recovery."

Christopher J. Eperjesy, Vice President - Finance, Chief Financial Officer and Treasurer, stated: "Total debt, net of cash, at September 30, 2011 was \$16,109,000 compared to \$9,532,000 at September 24, 2010. The increase in our debt position was a result of changes in working capital primarily from

higher inventory to support the company's growing backlog and capital investments. During the quarter we invested \$3,587,000 in new capital equipment and we continue to anticipate investing \$15,000,000 to \$20,000,000 in total for the fiscal year on modernization and expansion initiatives. Efficiently managing our working capital levels remains a key goal of management and we expect to improve our working capital levels throughout the year which should have a favorable impact on operating cash flow in the coming quarters."

Mr. Batten continued: "Our six-month backlog at September 30, 2011 was a record \$164,523,000 compared to a previous record of \$146,899,000 at June 30, 2011 and \$99,970,000 at September 24, 2010. The marine business, in particular, is showing signs of improving market demand, and we are experiencing an increased demand from pleasure craft customers for our Express Joystick System®."

"Fiscal 2012 is off to a great start, as we are executing our business initiatives and capitalizing on encouraging market demand. We expect fiscal 2012 to be another strong year," concluded Mr. Batten.

Forward-Looking Statements

This press release may contain statements that are forward looking as defined by the Securities and Exchange Commission in its rules, regulations and releases. The Company intends that such forward-looking statements be subject to the safe harbors created thereby. All forward-looking statements are based on current expectations regarding important risk factors including those identified in the Company's most recent periodic report and other filings with the Securities and Exchange Commission. *Non-GAAP Financial Disclosures

Financial information excluding the impact of foreign currency exchange rate changes and the impact of acquisitions, if any, in this press release are not measures that are defined in U.S. Generally Accepted Accounting Principles ("GAAP"). These items are measures that management believes are important to adjust for in order to have a meaningful comparison to prior and future periods and to provide a basis for future projections and for estimating our earnings growth prospects. Non-GAAP measures are used by management as a performance measure to judge profitability of our business absent the impact of foreign currency exchange rate changes and acquisitions. Management analyzes the company's business performance and trends excluding these amounts. These measures, as well as EBITDA, provide a more consistent view of performance than the closest GAAP equivalent for management and investors. Management compensates for this by using these measures in combination with the GAAP measures. The presentation of the non-GAAP measures in this press release are made alongside the most directly comparable GAAP measures.

<u>Definition – Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA)</u>

The sum of, net earnings and adding back provision for income taxes, interest expense, depreciation and amortization expenses: this is a financial measure of the profit generated excluding the above mentioned items.
