## Proxy Statement

This proxy statement is furnished in connection with the solicitation by the Board of Directors of the Corporation of proxies for use at the Annual Meeting of Shareholders to be held at 2 P.M. (Central Daylight Time), at 1328 Racine Street, Racine, Wisconsin on Friday, October 20, 1995, or any adjournment thereof. Holders of common stock of record at the close of business on the 1st day of September 1995, are entitled to vote at the meeting and each shareholder shall have one vote for each share of common stock registered in such shareholders' name. Shares represented by a signed proxy appointment will be voted in the manner specified in the form of proxy or, if no specification is made, in favor of each of the propositions mentioned therein. The presence of a majority of the outstanding shares of common stock of the Corporation, either in person or represented by a signed proxy appointment, will constitute a quorum at the meeting. The Corporation intends to mail this statement to shareholders on or about September 15, 1995.

On September 1, 1995, there were outstanding 2,790,111 shares of common stock of the Corporation entitled to vote at the Annual Meeting. There also are 200,000 shares of no-par preferred stock authorized, of which 50,000 shares have been designated Series A Junior Preferred Stock, but none outstanding.

The enclosed proxy appointment form must be delivered to the Secretary either in person, by mail, or by messenger. Appointment forms transmitted by facsimile, telex, telegram, or electronic means will not be accepted. Furthermore, appointment forms must be received by the Secretary not less than forty-eight (48) hours prior to the date of the meeting. APPOINTMENT FORMS NOT MEETING THE ABOVE REQUIREMENTS WILL BE RULED INVALID FOR ANY PURPOSE.

The appointment form must be signed in handwriting. The signature must be sufficiently legible to allow the inspector to distinguish it as representing the name of the registered shareholder, or must be accompanied by a rubber stamp facsimile or hand-printed name, including the shareholder's surname and either the shareholder's first or middle name as represented on the corporate records, and any titles, offices or words indicating agency which appear in the corporate records.

The enclosed proxy appointment may be revoked any time before it is voted by submission, either in person, by mail, or by messenger, of a later dated proxy appointment form to the Secretary at least forty-eight (48) hours prior to the date of the meeting. Any such later dated proxy appointment form which is not received by the Secretary by this deadline or by the correct method shall not be effective as a new proxy appointment nor as a revocation of a prior proxy appointment. In addition, a shareholder may revoke a proxy appointment form signed by him or her by openly stating the revocation at the meeting, by voting at the meeting in person, or by delivering a signed written statement revoking the proxy to the Secretary prior to the date of the meeting. Appointment forms or revocations transmitted by facsimile, telex, telegram, or electronic means shall not be accepted. ANY ATTEMPTED REVOCATIONS NOT MEETING THE ABOVE REQUIREMENTS WILL BE RULED INVALID FOR ANY PURPOSE.

The proxy solicited hereunder will be voted in favor of the Directors' recommendations on each and all matters properly brought before the meeting, unless the undersigned shareholder specifically instructs the holder or holders of the proxy to the contrary. With regard to the election of directors, votes may be cast in favor or withheld; votes that are withheld will be excluded entirely from the vote and will have no effect. Abstentions may be specified on all proposals submitted to shareholders (other than the election of directors). Abstentions and "broker non-votes" are counted for purposes of determining the presence or absence of a quorum for the transaction of business. Under the rules of the New York Stock Exchange, Inc., brokers who hold shares in street name for customers may have authority to vote on certain items when they have not received instructions from beneficial owners. A "broker non-vote" occurs on an item submitted for shareholder approval when the broker does not have authority to vote on the item in the absence of instructions from the beneficial owner. Such "broker non-votes" will have no effect on the outcome of the election of directors or the independent public auditors.

Zimmer as directors to hold office until the next succeeding annual meeting, and each of them has been nominated to complete a partial term which will expire at the Annual Meeting in 1996, at which time John L. Murray and William W. Goessel will retire. This year, the terms of Stuart W. Tisdale, James O. Parrish and Paul J. COMPENSATION PURSUANT TO PLANS

RETIREMENT INCOME PLAN

The Twin Disc Employees' Retirement Income Plan for salaried employees provides non-contributory benefits based upon both years of service and employee's highest consecutive 5-year average annual compensation during the last 10 calendar years of service excluding any annual incentive awards paid. The Plan is integrated with Social Security. The following table presents the non-contributory benefits payable for life under the Plan to employees assuming normal retirement in the current year.

AVERAGE HIGH 5-YEAR ANNUAL COMPENSATION	NON-CONTRIBUTORY PENSION BASED ON YEARS OF CREDIT SERVICE				
	10 YEARS	20 YEARS	25 YEARS	30 YEARS	40 YEARS
\$ 50,000	\$10,257	\$20,513	\$25,641	\$26,869	\$29,133
75,000	15,456	30,913	38,641	40,519	44,082
100,000	20,656	41,313	51,641	54,169	59,032
150,000	31,056	62,113	77,641	81,469	88,932

The values reflected in the table represent the application of the Plan formula to the appropriate amounts of compensation and years of service. Benefits payable under the Plan, however, must be in compliance with the applicable guidelines or maximum prescribed in the Employees Retirement Income Security Act of 1974 (ERISA), as currently stated or as adjusted from time to time. Assuming continued employment to normal retirement age (age 65) the estimated credited years of service for each of the Corporation's executive officers named in the Summary Compensation Table is as follows: Mr. Batten 34 years; Mr. Joyce 15 years; Mr. Parrish 32 years; and Mr. McIndoe 24 years. Mr. Pecriaux is not eligible for benefits under the Twin Disc Retirement Income Plan.

The Corporation has adopted an unfunded supplemental plan which will provide those benefits which are otherwise produced by application of the Plan formula, but which, under ERISA, are not permitted to be funded or paid through a qualified plan and its related trust. Such an arrangement is specifically provided for under the law.

#### SUPPLEMENTAL RETIREMENT BENEFIT PLAN

A supplemental retirement benefit is extended to qualified Management Group participants. The supplemental retirement benefits extend over a period of 10 years after normal retirement or in the event of disability at an amount equal to sixty percent of the highest rate of pay attained during a specified period of time, plus keyman group life insurance premiums or their equivalent supplemental benefit payable to those electing early retirement. In the event of death of a member of the Management Group, whether active or retired, an amount equal to 2 years' supplemental retirement benefits is payable to the widow or other designated beneficiaries over a 4 to 10 year period.

#### COMPENSATION OF DIRECTORS

Directors of the Corporation were paid a retainer fee of \$8,000 for the year. In addition, Directors received a \$1,200 fee for each board meeting attended and \$1,000 for each committee meeting attended. Directors who are officers do not receive any fees in addition to their remuneration as officers.

Outside Directors (non-Twin Disc employees) are eligible to participate in the 1988 Non-Qualified Stock Option Plan for Officers, Key Employees and Directors.

Outside Directors (non-Twin Disc employees) who reach the age of 68 or who retire from full-time employment are required to retire from the Board of Directors effective as of the completion of their current term. Retired outside directors are entitled to a retirement benefit for a limited period equal to the sum of:

- a) The annual retainer at the time of retirement.
- b) Six monthly fees for Director Meetings at the rate prevailing at the time of retirement.

EMPLOYMENT CONTRACTS AND TERMINATION OF EMPLOYMENT AND CHANGE IN CONTROL  
ARRANGEMENTS

The Corporation has entered into Severance Agreements with certain of its key executives, including Messrs. Batten, Joyce, Parrish, Pecriaux and McIndoe. The Agreement provides for severance benefits to be paid to any such executive following a change in control of the Corporation (as defined) and a termination (as defined) of the employment of such executive. Upon the occurrence of the events, as specified in the Severance Agreements, which would entitle such executive to the payment of severance benefits, the maximum contingent liability of the Corporation for the payment of such severance benefits would be approximately \$3,500,000. Severance benefits for an executive officer would generally consist of the sum of the executive's highest annual base salary between the change in control and the date of termination plus the executive's most recent annual bonus times the lesser of 2.75 or the number of whole and fractional years between the termination date and his normal retirement date. In addition, the executive would be entitled to the cash value of any shares of common stock subject to unexercised stock options held by the executive. The Severance Agreements are specifically designed to assure that benefits will not exceed the limitations and provisions of Sec. 280G, of the Internal Revenue Code.

BOARD EXECUTIVE SELECTION AND SALARY COMMITTEE REPORT  
ON EXECUTIVE COMPENSATION

COMPENSATION PHILOSOPHY

The Corporation's primary business objective is to maximize shareholder value over the long term. To accomplish this objective, the Corporation has developed a comprehensive business strategy that emphasizes maximizing long-term cash flow and earnings, maintaining leadership or becoming the leader in its markets, and providing products of the highest quality.

The Executive Selection and Salary Committee of the Board of Directors (the "Committee") establishes compensation programs which are designed to foster the Corporation's business objectives. The Committee approves the design of, assesses the effectiveness of, and administers executive compensation programs in support of compensation policies. The Committee also reviews and approves all salary arrangements and other remuneration for executives, evaluates executive performance, and considers related matters.

The Committee members believe that each element of the compensation program should target compensation levels at rates that are reflective of current market practices. Offering market-comparable pay opportunities allows the Corporation to maintain a stable, successful management team.

Competitive market data is provided by an independent compensation consultant. The data provided compares the Corporation's compensation practices to a group of comparator companies. The Corporation's market for compensation comparison purposes is comprised of a group of companies that have national and international business operations and similar sales volumes, market capitalizations, employment levels, and lines of business. The Committee reviews and approves the selection of companies used for compensation comparison purposes.

In establishing a comparator group for compensation purposes, the Committee neither bases its decisions on quantitative relative weights of various factors, nor follows mathematical formulae. Rather, the Committee exercises its judgment and makes its decision after considering the factors it deems relevant.

The companies chosen for the comparator group used for compensation purposes generally are not the same companies which comprise the peer group index in the Performance Graph included in this proxy statement. The Committee believes that the Corporation's most direct competitors for executive talent include many companies in geographical areas in which it operates as well as many of the companies that are included in the peer group established for comparing shareholders returns.

The key elements of the Corporation's executive compensation are base salary, annual incentives, long-term compensation, and benefits. These key elements are addressed separately below. In determining compensation, the Committee considers all elements of an executive's total compensation package, including severance plans, insurance, and other benefits, with the objective of being competitive but not trend setting.

#### BASE SALARIES

The Committee regularly reviews each executive's base salary. Base salaries are targeted at market levels, based upon the Committee's analysis of marketplace practices. Base salaries for executives are initially determined by evaluating executives' levels of responsibility, prior experience, breadth of knowledge, internal equity issues, and external pay practices.

Base salaries offer security to executives and allow the Corporation to attract competent executive talent and maintain a stable management team. They also allow executives to be rewarded for individual performance based on the Corporation's evaluation process which encourages the development of executives. Pay for individual performance rewards executives for achieving goals which may not be immediately evident in common financial measurement.

Increases to base salaries are driven primarily by individual performance. Individual performance is evaluated based on sustained levels of individual contribution to the Corporation. When evaluating individual performance, the Committee considers the executive's effort in promoting Corporate values; improving product quality; developing relationships with customers, suppliers, and employees; demonstrating leadership abilities among coworkers; and other goals. Overall, executive salaries were increased at rates comparable to the increases provided at other companies and are near market levels.

As reflected in the Summary Compensation Table on page 7, Mr. Batten's base salary was increased in 1995 by \$10,287 (3.5%). In determining Mr. Batten's base salary in 1995, the Committee considered the Company's financial performance for the year, Mr. Batten's individual performance, and his long-term contributions to the success of the Corporation. The Committee also compared Mr. Batten's base salary to the base salaries of CEOs at comparator companies.

#### ANNUAL INCENTIVES

The Twin Disc Incentive Bonus Program (the "Annual Plan") promotes the Corporation's pay-for-performance philosophy by providing executives with direct financial incentives in the form of annual cash bonuses to achieve corporate, business unit, and individual performance goals. Annual bonus opportunities allow the Corporation to communicate specific goals that are of primary importance during the coming year and motivate executives to achieve these goals.

Eligibility to participate in the Annual Plan, as well as the individual payout percentages assigned to each eligible executive's position, are determined annually by Mr. Batten, as chief executive officer, subject to the approval of the Committee.

Each year, the Committee approves specific goals relating to each executive's bonus opportunity. Eligible executives are assigned threshold and target bonus levels based on a percentage of base salary. Executives earn bonuses to the extent to which preestablished goals are achieved.

In 1995 bonus awards were granted as earnings targets were attained indicating that prior long term decisions are providing favorable results. Corporate goals in 1995 were based on target earnings and return on net assets employed.

Target bonus awards are established at levels approximating marketplace practices for each executive. Targets are considered by the Committee to be achievable, but to require above average performance from each of the executives.

In 1995, Mr. Batten received a bonus under the Annual Plan of \$111,326. This reflects a 90% achievement of the Corporation's goal relating to target earnings and 98.1% achievement of the Corporation's goal relating to return on net assets employed in 1995.

#### LONG-TERM INCENTIVES

Long-term incentives are provided pursuant to the Corporation's 1988 Non-Qualified Stock Option Plan for Officers, key employees and Directors, and the 1988 Incentive Stock Option Plan.

In keeping with the Corporation's commitment to provide a total compensation package which includes at-risk components of pay, the Committee makes annual decisions regarding appropriate stock option grants for each executive. When awarding stock options, the Committee considers executives' levels of responsibility, prior experience, historical award data, various performance criteria, and compensation practices at comparator companies.

Stock options are granted at an option price not less than the fair market value of the Corporation's common stock on the date of grant. Accordingly, stock options have value only if the stock price appreciates from the date the options are granted. This design focuses executives on the creation of shareholder value over the long term and encourages equity ownership in the Corporation.

On August 14, 1995, Mr. Batten received non-qualified options to purchase shares at the fair market value of shares on the date of grant and qualified options to purchase shares at 110% of the fair market value on the date of grant. In 1994, Mr. Batten received non-qualified options to purchase 4,500 shares at the fair market value on the date of grant and qualified options to purchase 4,500 at 110% of the fair market value on the date of grant. Mr. Batten is claimed to be the beneficial owner of 80,713 shares of the Corporation's common stock and holds options to purchase an additional 38,000 shares. The Committee believes that this equity interest provides a strong link to the interest of shareholders.

## CORPORATE PERFORMANCE GRAPH

The following table compares total shareholder return over the last five (5) fiscal years to the Standard & Poor's Diversified Machinery Index and the Russell 2000 index. The S&P Diversified Machinery Index consists of a broad range of manufacturers (including the Corporation). The Russell 2000 Index consists of a broad range of 2,000 Companies (including the Corporation). The Corporation believes, because of the similarity of its business with those companies contained in the S&P Diversified Machinery Index, that comparison of shareholder return with this index is appropriate. Total return values for the Corporation's common stock, the S&P Diversified Machinery Index and the Russell 2000 Index were calculated based upon an assumption of a \$100 investment on June 30, 1990, and based upon cumulative total return values assuming reinvestment of dividends on a quarterly basis.

COMPLIANCE WITH SECTION 16(a)  
OF THE SECURITIES EXCHANGE ACT OF 1934

Section 16(a) of the Securities Exchange Act of 1934 requires executive officers and directors, and persons who beneficially own more than ten percent (10%) of the Corporation's common stock, to file initial reports of ownership and reports of changes in ownership with the Securities and Exchange Commission. Executive officers, directors and greater than ten percent (10%) beneficial owners are required by the SEC regulations to furnish the Corporation with copies of all Section 16(a) forms they file.

Based solely on a review of the copies of such forms furnished to the Corporation and representations from executive officers and directors, the Corporation believes that during the period from July 1, 1994 to June 30, 1995, all Section 16(a) filing requirements applicable to its executive officers, directors and greater than ten (10%) beneficial owners were complied with.

The Directors of the Corporation recommend that you vote in favor of the appointment of Coopers & Lybrand as independent public accountants for the Corporation for the fiscal year to end June 30, 1996. The firm has audited the Corporation's books annually since 1928. Representatives of Coopers & Lybrand are expected to be present at the meeting and, while no formal statement will be made by them, they will be available to respond to appropriate questions. If the shareholders should not approve such appointment, the Directors would reconsider the appointment.
